Continuation of Substance of Interview including description of the general nature of what was discussed: applicant's attorney was called to suggest filing a terminal disclaimer to overcome a potential non-statutory obviousness double patenting rejection using US patent 6,316,824 and to add the language "including a plastic lead frame structure having a conductive polymeric material located on at least a portion of said plurality of lead fingers "into independent claim 1 to overcome a potential 103 rejection utilizing US 5,297,008. The attorney agreed with the suggestions made by the examiner and faxed over a terminal disclaimer and gave the examiner authorization to make the above change to claim 1 by examiner's amendment. Therefore, applicant's account has been charged for the filing of the terminal disclaimer and a notice of allowance is forthcoming.
